KMI Aluminium Tower Scaffolding

KMI Aluminium Tower Scaffolding is manufactured with Robot Welding technology to offer you the utmost safety for building maintenance cleaning and decoration works at different heights.

FEATURES ALUMINIUM SCAFFOLD TOWER SPECIFICATIONS

- Loading Capacity: 2.2KN/m² each platform
- Thickness Of Pipe: 2mm
- 8 x2 Castor Load: 450kg/pc
- Structure Whole Tower: 1 Ton Load
- Highest Tower Below: 14.1m Double Width
- Highest Tower Below: 14.1m Single Width
- Aluminium Grade 6061-T6

INFORMATION ALUMINIUM SCAFFOLD

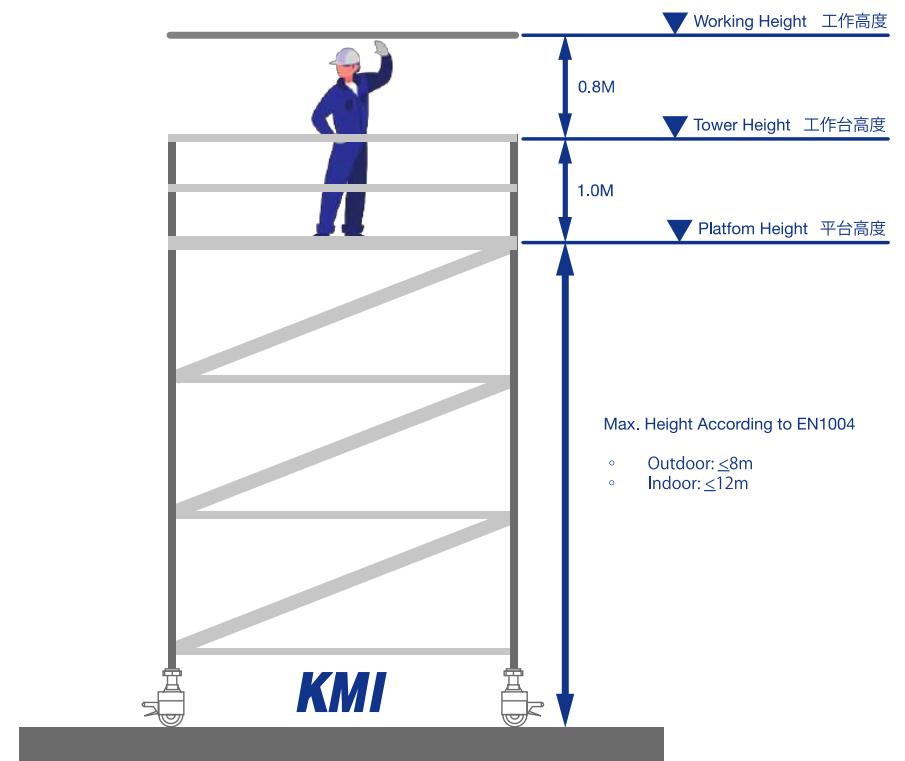

- Designation: Class 3.2KN/m² around 200kg/m²
- Maximum Height Indoor: 12m
- Maximum Height Outdoor: 8m
- Maximum Platform Height: 14.1m Double Width
- Maximum Platform Height: 14.1m Single Width
- 275kg max. evenly distribute safe working load per level
- Frame rung to rung 464mm (center to center)

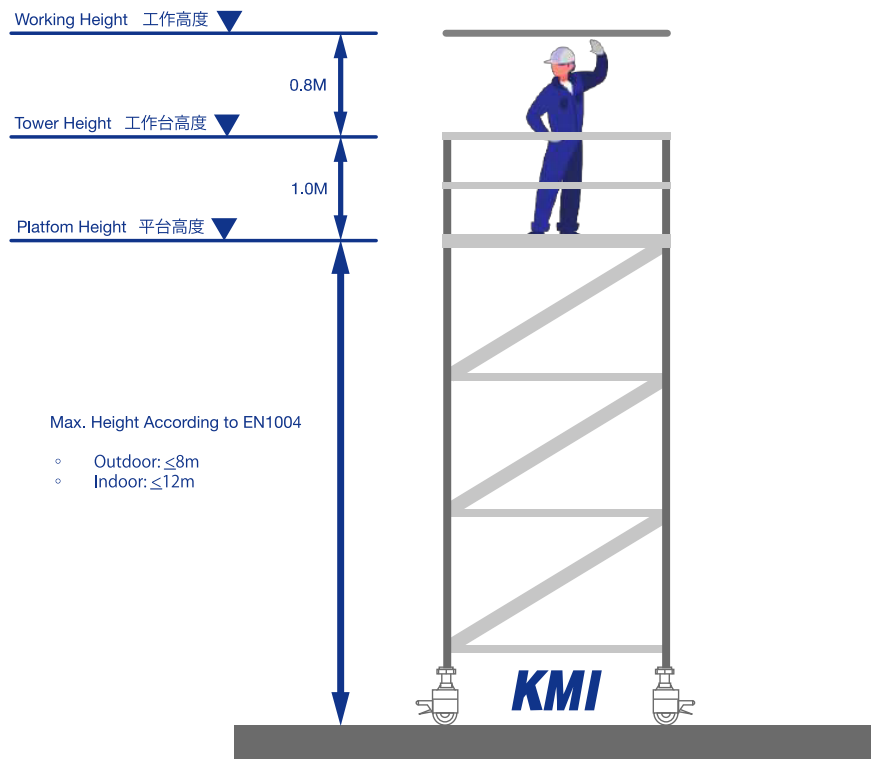

DOUBLE WIDTH ALUMINIUM SCAFFOLD TOWER

Length: 2m
Width: 1.35m

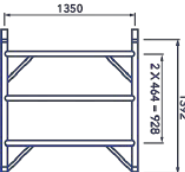

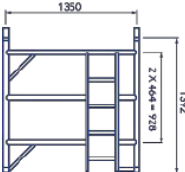

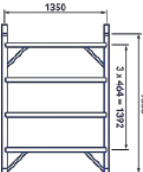

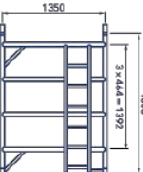

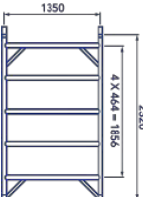

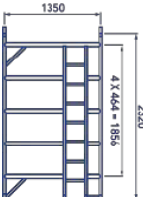

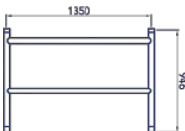

SINGLE WIDTH ALUMINIUM SCAFFOLD TOWER

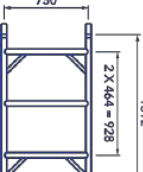

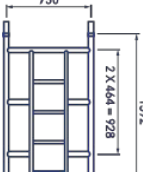

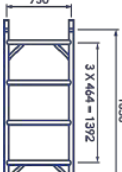

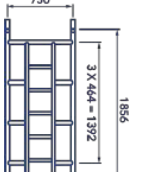

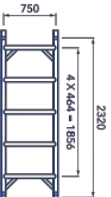

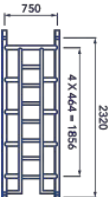

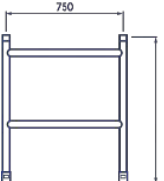

Length: 2m
Width: 0.75m

About Us

KMI Services Pte Ltd (Singapore), a subsidiary of KYC Machine Industry Co., Ltd (Japan) was established in 1999.

We are principally engaged in providing the installation and dismantling of metal scaffolding along with rental and sale of metal scaffolding accessories. We are also the distributor for KYC's batching plant products and parts in this region.

The company has grown from a small operation into a medium-sized company today. This growth was made possible through the company's expansion of its products and service base, both in range as well as in geographical spread.

Mission

We, as a Ministry of Manpower (MOM) and Housing Development Board (HDB) approved scaffold contractor, aim to provide safe and reliable scaffolding services and to be recognised as the first choice for all our customers.

At KMI, we will continue to seek new innovative methods and services so as to give our customers a vital edge.
