

BKR700 ONE TON ROLLER

Features:

- Hydraulic drive, imported hydraulic pump from Japan
- Handled by joystick, effort saving and smooth operation
- Custom made water-cooled diesel engine, with good heat dissipation and great power comparing to gasoline engine, especially fits for running in burning hot areas.
- 4 Drum and body steel material is C45, better tensile strength than Q235, long service life
- Steel cutting by laser, no deformation from twisting and bending, high dimension accuracy comparing to flame cutting
- The rollers can work long time with high capacity water tank

Technical Specification:

Model	BKR700
Engine Model	RD90N Water Cooled Diesel Engine
Max Output	6.62kw (9HP)
Fuel tank Capacity	25 L
Weight	700kg
Travel Speed	0-4 km/h
Vibration Frequency	60 HZ
Centrifugal Force	12KN
Compact Width	650mm
Roller Diameter	360mm
Water Tank Capacity	40 L
Country Origin	China
Brand	Boke
